

FREE Half day workshop October 2018

“Drip and Microjet Irrigation Users Course”

Get the latest information on design, operation and maintenance of drip and microjet irrigation systems.

Rutherglen

Thursday 24th October

8:30 am – 1:00 pm

Tatura

Thursday 25th October

8:30 am – 1:00 pm

Morning tea and lunch provided

Cost: Free, numbers limited.

Topics:

- Understanding designs and specification sheets
- System monitoring – measuring pressures and discharge
- System maintenance – flushing, chlorination, acid injection
- Local research comparing drip and microjet irrigation

Presenters: Jeremy Giddings (Agriculture Victoria) & Peter Henry (Netafim Australia).

What to bring:

- Bring your irrigation design (if you have one) to calculate specific application rates and chemical injection requirements for your block
- Footwear/clothing for field visit to assess a drip system

RSVP and to get directions by 19th October to:
